

**UNITED STATES MISSION TO THE UNITED NATIONS
NEW YORK**

HC-143(S)-04

December 16, 2004

The United States Mission to the United Nations presents its compliments to the United Nations Secretariat and has the honor to inform them of a new policy regarding dependents of the United Nations staff members, principally sons and daughters, who have reached 21 years of age. The United States Mission respectfully requests the cooperation of the United Nations Secretariat in responding promptly to this note.

Under cover of this note, the United Nations Secretariat will find a listing of all dependent children of United Nations staff members who have reached the age of 21 years. The United Nations Secretariat is asked to review this list and must confirm the status of the individuals on the list if the dependent is to remain in the United States and is to be eligible for visa and other services provided by the Host Country Affairs Section of the United States Mission.

To facilitate this task, United Nations Secretariat should complete and return to the United States Mission the attached Dependency Confirmation for each individual whose name appears on the list. If the United States Mission does not receive a Dependency Confirmation for each individual by the close of business on

January 31, 2005, the individual will be considered to be terminated from the United Nations Secretariat and related agencies' rolls and will lose any applicable immunities.

The United Nations Secretariat is requested to inform the United States Mission on an on-going basis the status of dependents when they reach the age of 21 or when they depart the United States or when they change their visa status from G-4 to some other status. As necessary, the United States Mission will periodically request an overall update from the United Nations Secretariat.

The United States Mission to the United Nations avails itself of this opportunity to renew to the United Nations Secretariat the assurances of its highest consideration.
